

Creating MAGICAL CHARACTERS through the BODY

8-Week Online Workshop
led by Julie Mariouw

THURSDAY Evenings

6:30-9pm (Eastern Time)

June 3 - July 22

2021

Cost \$250

(Payment plan available)

In this workshop we will:

- We will tap into emotional experiences, asking our bodies to bring up characters we hold within
- Cluster these characters to find out more about them
- Let the characters wander free in our imagination
- Discover our characters' stories & relationships, & write these down on the page

"As writers, it's a cheap form of therapy to use the characters we create to imagine stories where our protagonists have the guts to do the things we might not personally be ready for yet. To attempt the impossible. To be fearless in taking action to protect a loved one. To risk everything for honor, love or redemption."
